Testimonials

Hi ladies. I've been doing Med Mavins Business for exactly a month and the only regret I have is "why didn't I join sooner". I don't think you'll make a lot of money from it immediately but you definitely will get out what you put in. My daughter loves Med Mavins books and I'm very passionate about them too. My husband too was skeptical about it at first but he is amazed at how far I've gone in just a month. His friends came over last night and are interested in joining too. It's up to you though how much work you want to put into it...no targets and I've found the support system great. Just thought I'll drop my own experience

Thanks

Testimonials

"I have taken some time to look through your website and the samples of comic that you're authoring. I have to say I really love the concept, messages, and artwork that has been used. The concept and layout of a comic and/or graphic novel is such a great medium that many children jump at (especially boys) and I can see how these stories would be popular. In particular for topics such as nutrition that so many times are written in a very boring and dull way. "
